- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# Key Points

04/26 – 05/1

## Thursday

- Thunderstorms over the Sierra Nevada and N. CA mountains.
- Above normal temperatures; moderate heat risk in the southern desert areas.

## Friday

- Turning cooler. Showers or thunderstorms northern CA.
- Gusty winds southern Sierra Nevada and southern CA deserts/mountains.

## Saturday-Monday

- Cooler. Showers/isolated thunderstorms, mainly northern CA and Sierra Nevada.

## Tuesday-Wednesday

- Continued chances for showers/isolated thunderstorms, mainly mountain areas.

# California OES Impact Threat Matrix

## April 26 – May 1, 2018

DAY/THREAT	THU	FRI	SAT	SUN	MON	TUE	WED
Fire Weather							
Winds		S. CA deserts/mts	S. CA deserts/mts	S. CA deserts/mts	S. CA deserts/mts		
Snow							
Heavy Rain/ Flash Flooding							
River Flooding							
Severe Weather	NE CA (Isolated)						
Heat	Deserts	Deserts					
Tropical							

	High Threat
	Moderate Threat
	Slight Threat
	No Discernible Threat

# Heat Risk

Category	Level	Meaning
Green	0	No Elevated Risk
Yellow	1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration
Red	3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	4	Very High Risk for entire population due to long duration heat, with little to no relief overnight

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

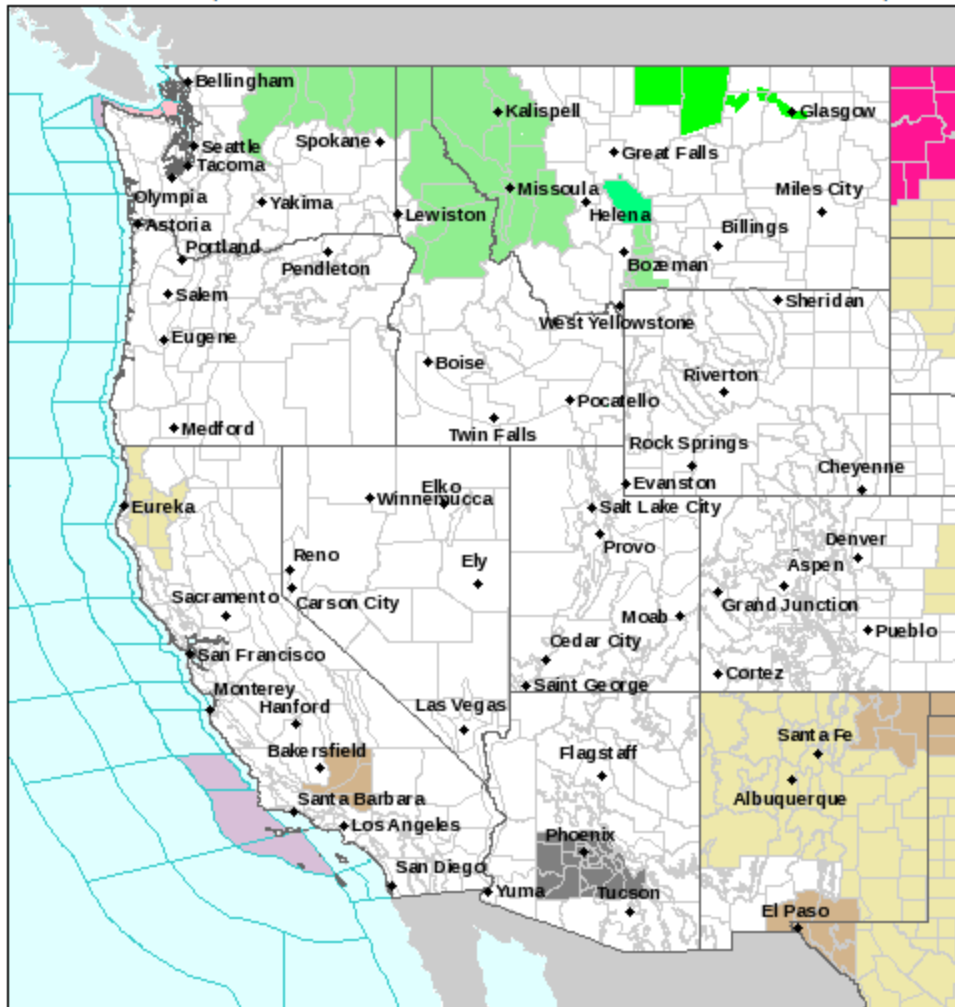

The ridge that has been so dominant the past few days will gradually break down due to a low pressure system (cut off low) that has been looming off the coast. As the low pressure system progresses eastward, the atmosphere will become unstable and will cool. Showers and some thunderstorms will develop especially favoring the afternoon periods from Friday through Sunday. The Northwestern Mountain Predictive Service Area (PSA) and Northeastern California PSA will be favored with the precipitation and expect some wetting results. Pre-frontal southerly winds will begin to increase today but will peak Friday afternoon prior to a weak cold frontal passage. Expect peak gusts between 20 to 30 mph favoring areas along and to the east of the Sierra and Cascade ranges. Humidity values will trend higher during this period but a few teens will be possible across the Far Eastside PSA when the stronger windflow occurs Friday afternoon. The weather models seems to be a little more in agreement with kicking the low pressure system off to the east early next week and building a ridge in it's place. Some lighter, residual showers may remain but cloud cover will begin to thin and temperatures will warm. A semi-breezy drier, N-NE wind flow scenario could develop early next week but confidence is still low on the timing and overall progression of the cut off low. Very typical for this time of year.

## **SOUTHERN CALIFORNIA**

Scattered showers and thunderstorms will form over the Sierra this afternoon as an area of low pressure approaches the Northern California Coast and a ridge over the West Coast shifts eastward. Temperatures will cool a little today, with mid 60s to mid 70s across the mountains and mid 70s to mid 80s in the valleys. Minimum humidity will be mainly between 15% and 30% away from the coastal areas today. The low pressure area and its associated trough will push inland Friday and stay in place through the middle of next week bringing near to below normal temperatures to the region. The marine layer will become deep, with morning low clouds and fog making it up to the lower coastal mountain slopes. Westerly winds of 20 to 40 mph with gusts to 60 mph will surface across the mountain ridges and desert passes Friday through early next week. Scattered showers and thunderstorms will be possible over the Sierra and Southern California in the Monday through Wednesday time frame.

# Cal OES LAW ENFORCEMENT MISSIONS

## New Cal OES Law Missions

- **2018-LAW-46345, 04/25/18, 1450 hours:** Tulare County Sheriff's Office is requesting two (2) HDR canines to assist with a missing person case at an undisclosed location in Tulare County. Santa Barbara Sheriff's Office has accepted the mission and will be sending two HDR teams to assist with the search on 04/26/18 at 0800 hours. **Mission On Going**

## Closed Cal OES Law Missions

- **2018-LAW-46307, 04/22/18, 1428 hours:** Shasta County is requesting 20 Search and Rescue volunteers to assist in the search for a 71 year old female that left her residence for a walk on 04/20/18 and has not returned. Personnel are requested for one operational period to begin on 04/23/18, 0700 hours. The search is in the Fall River Mills area of Shasta County. Mendocino, Lake, Butte and Siskiyou counties committed the requested personnel. **Update: 04/23/18:** Searches conducted on 04/23/18 were unsuccessful. Mutual Aid resources have been released. Limited searching will continue using local resources. **Update: 04/24/18:** Searches conducted by local resources on 04/24/18 did not locate the victim, but did locate additional clues. Shasta County has requested 30 Mutual Aid Search and Rescue volunteers for a new operational period to begin on 04/25/18, 0900 hours. Siskiyou, Butte and Modoc Counties will provide a portion of the requested resources. Cal OES Law Branch Assistant Chief will monitor. **Update: 04/25/18:** Searches conducted on 04/25/18 did not locate the victim or additional clues. All mutual aid resources have been released and searches will continue using local resources. **Mission Closed.**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-LAW-45645:** Big Sur International Marathon 04/27/18-04/29/18, Tactical Communications Staff and Reserves will be providing communications support to Mission with Radios, Satellite and staff.
- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
